

BC ONE CALL Video

“Call before you dig”

The WCB of BC has supported BC One Call since its inception in British Columbia. As a show of support by the WCB for BC One Call we produced a short video to encourage “Calling before You Dig”. This video is intended to demonstrate the consequences of not calling, both financial consequences and injury to workers. The video also explains the process of what happens when a call is made to BC ONE CALL. By calling BC ONE CALL you can reduce the risk of personal injury and property damage, as well as minimize risks associated with accidents involving buried facilities. You may find this video useful at safety meetings and new employee orientations. Running time for the video is 7 minutes 16 seconds.

This video is also available for loan, free of charge to industry in BC. Contact the WCB Library (preferably by phone) at:
